Permission documents index

These documents are drafts to help obtain and record authorization. None of them grants rights by itself.

Document	PDF	Purpose	Who signs it
PERMISSION_REQUEST_TEMPLATE.md	PDF	Initial request letter asking the rights holder for permission.	Repository owner sends it.
PERMISSION_AGREEMENT_DRAFT.md	PDF	Formal license agreement granting porting and redistribution rights.	Must be signed by an authorized rights-holder representative and by the repository owner.
OWNER_RIGHTS_ATTESTATION.md	PDF	Repository owner’s declaration that signed authorization has been obtained.	Repository owner signs it; attach the executed agreement as Exhibit A.
RIGHTS_CHECKLIST.md	—	Gate that must pass before any public release.	Maintainer reviews.

Important

- Do not fill in or sign Rovio’s name, signature, or title unless you are an authorized Rovio representative.
- A draft agreement, an unsigned attestation, or a file hosted on a public mirror is not proof of redistribution rights.
- The LimeWire mirror provided on 2026-10-24 returned Error 410 — “This link no longer works.” The PC base archive still needs to be uploaded to the repository or attached in chat.
- Until the rights checklist is satisfied, no game binaries or assets will be committed to this branch or included in a GitHub Release.
